Contingency Plan in Case of Overt Attack by U.S. or Israel on Iran
Updated November 2011

Due to the increased calls for military action against Iran in both Washington and Tel Aviv, Women Against War’s Iran Project decided it was important to re-issue this plan for a coordinated, immediate response if either the U.S. or Israel carries out a direct attack against Iran (e.g., bunker-buster bombs, missiles). Several years ago, at the request of NEPAJAC (Northeast Peace and Justice Action Coalition), the Iran Project developed this contingency plan for a community-wide protest demonstration in case of an overt attack by the U.S. or Israel against Iran.

The Plan: When there is a news report (any time before 6 PM of that day) of an overt military attack by the U.S. or Israel against Iran, the protest demonstration will occur on the following day. E.g., a news report before 6 PM on a Tuesday will trigger a demonstration on a Wednesday; a news report after 6 PM on a Tuesday or before 6 PM on a Wednesday will trigger a demonstration on Thursday.

- Demonstration at Wolf Road & Central Ave. from 5–6:30 PM
- Dress all in black if you can.
- Bring a large print sign.
- Bring pots and spoons to bang and other noise makers

We have focused this demonstration on an overt attack because the U.S. and Israel are already engaged in covert actions against Iran. A permit will not be required for this sidewalk demonstration, and we will ensure there is a plan to notify the media. WAW will bring its Iran banners and photos of Iranians.

Let’s all keep working hard to prevent this demonstration from ever needing to happen! If anyone has questions, please contact Maud Easter, Mickie Lynn or Trudy Quaif.

Please share this plan immediately with your organization’s members and save it to send out again with a specific date if an attack occurs.
